KNOX STATIONVAULT™
SECURE NARCOTICS STORAGE

The Knox StationVault offers secure narcotics storage designed for drug resupply applications in office or medical environments. The durable StationVault's flexibility provides storage for up to 200 vials with wall or counter mounting options. Through networking options all access and entry records are automatically uploaded to KnoxConnect Cloud Management Software with accessibility for comprehensive record reviews. With integrations available to send audit data to inventory systems, the StationVault can strengthen chain of custody tracking and reporting.

SECURITY
Durable cast aluminum construction provides greater protection than sheet metal storage cabinets

DUAL AUTHENTICATION
Access options include use of one or two PINS or Keys

ACCOUNTABILITY
All access, including key use, is time stamped, stored, and automatically updated for reporting in KnoxConnect Cloud Management Software

RFID COMPATIBILITY
Compatible with RFID inventory control systems with APIs that automate data output to third party systems

CAPACITY
Includes three shelves with capacity for up to seven shelves. Adjustable to accommodate large vials and packaging.

MKT-KBSPEC-0534
